DETAILED ACTION

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on January 30, 2006 has been entered.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reason for allowance claims 1, 8 and 16 is that the prior art of record does not teach the inserter speed adjuster unit and the method that sequentially receives at least one printed sheet at the first speed and the insert sheet at the second speed and outputs both at an adjusted third speed and that the inserter speed adjust unit determines the actual arrival time of the at least one printed sheet at the unit and compares the synch pulse signal from the marking engine to the actual arrive time of the insert sheet for changing the speed of the at least one sheet from the first speed to the third speed as argued by applicant (the Remarks, the paragraph bridging pages 7 and 8).

Art Unit: 2854

The limitations in the claims are not rendered obvious by any proper combination of the prior art known to the Examiner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
